Effective execution requires addressing scale, velocity, and safety concerns

Simplify and accelerate migration and deployments using modern DevOps principles and tools

App Modernization

Portfolio Management

Platform Options

Extensive Planning

Effective Execution

Products and services to help...

- Gain greater visibility into business services and applications
- Perform objective assessment to develop a roadmap
- Develop and customize migration execution plans
- Effectively manage complex projects
- Simplify and accelerate migration and deployments

CONTACT US

Rationalization

Develop an application modernization roadmap using the assessment platform based on "Multi Criteria Decision Analysis" (MCDA) and Analytic Hierarchy Process (AHP) methodology.

RATIONALIZATION

Planning

Coming Soon - The planning platform assists in effective governance and provides visibility for all stakeholders for a complex Migration and Modernization project.

PLANNING

Deployment

Simplify deployments using QMCLOUD – a "No Code" cloud infrastructure deployment platform and integrate with your choice of CI/CD tools

DEPLOYMENT
