LOVE, LOVE, LOVE this. It's my 3rd order. I had never tried it until I went to Punta Cana and I'm not a big drinker but after a long day, 2 shots of this stuff and you're definitely pretty chill. So happy that I was able to find it in the US so I could order it.

What is mamajuana?

Mamajuana is the typical spiced rum of the Dominican Republic. It's a 500 year old recipe inspired by the Shamans of the Taino People. It became popular for its effects and is an emblem of Dominican culture and pride. If you travel to Punta Cana, you'll probably see a lot of people drinking this at your resort!

Is there any weed, marijuana, CBD, THC in this?

Even though the names sound very familiar, **THERE IS NO MARIJUANA** or cannabis derivatives in our mamajuana! Just fine rum, spices and honey.

Is this a rum?

Yes, it's a premium, naturally-spiced rum. It's like the spiced rum you've had before, except it doesn't have any artificial flavors or colors. It's also a bit sweeter and smoother on the palate because we use fresh pressed sugarcane and not molasses. Mamajuana is a category of its own. It's made with fine Dominican rum. Once you infuse the Mamajuana ingredients, and add honey, it becomes a Mamajuana.

Why doesn't it have any sticks inside?

Candela is a premium Mamajuana. We filter the Mamajuana sticks out during the bottling process to comply with international export regulations.

Even though Candela is clear, it tastes just like "traditional" Mamajuana (if not better!).
