LOVE, LOVE, LOVE this. It's my 3rd order. I had never tried it until I went to Punta Cana and I'm not a big drinker but after a long day, 2 shots of this stuff and you're definitely pretty chill. So happy that I was able to find it in the US so I could order it.

## ASK AWAY.

### What is mamejuna?

Mamejuna is the typical spiced rum of the Dominican Republic. It's a 500 year old recipe inspired by the Shamans of the Taino People. It became popular for its effects and is an emblem of Dominican culture and pride. If you travel to Punta Cana, you'll probably see a lot of people drinking this at your resort.

### Is there any weed, marijuana, CBD, THC in this?

Even though the names sound very familiar, **THERE IS NO MARIJUANA** or cannabis derivatives in our mamejuna!

Just fine rum, spices and honey.

### Is this a rum?

Yes. It's a premium, naturally-spiced rum. It's like the spiced rum you've had before, except it doesn't have any artificial flavors or colors. It's also a bit sweeter and smoother on the palate because we use fresh-ground sugarcane and not molasses. Mamejuna is a category of its own. It's made with fine Dominican rum. Once you infuse the Mamejuna ingredients, and add honey, it becomes a Mamejuna.

### Why doesn't it have any sticks inside?

Candia is a premium Mamejuna. We filter the Mamejuna sticks out during the bottling process to comply with international export regulations.

Even though Candia is clear, it tastes just like "traditional" Mamejuna (if not better!).
