MEET THE FOUNDER

You have a *vision* of being able to step away from your business while it not only sustains but scales to *new heights*.

WE HAVE THE TAILORED METHODOLOGY AND TEAM OF ADVISORS TO MAKE IT HAPPEN.

In an online world where anyone can be anything- we choose to stand in a small category of advisors with true experience and a lengthy list of results.

We've spent years building companies and mentoring entrepreneurs just like you. The ones who are hungry to scale their company in a non-traditional way. We align your vision with revenue generating implementation that allows you to operate an organization no longer dependent on you. We specifically work with established multiple six, seven and eight-figure founders only.

As a strategic advisor, we partner with established companies for accelerated growth, reduce owner dependency and get massive results with proven customized strategies.

We are proud to say we have educated well over 1,000 entrepreneurs generating over eight figures worth of revenue growth annually. Not only will we provide you the knowledge you need to increase your sales and efficiently manage your leadership team, but also structure your business in a way that revenue grows month after month so you can spend more quality time doing the things you love outside of being a CEO.

Established founders like you hire our firm when they are ready to rise above the noise, live a fulfilled life and belong to a curated network of other powerhouse founders.

We only work in a 1:1 capacity with our clients to ensure massive results and do not offer any group programs. As a private firm we only take a handful of new clients annually.

I have 40X my sales, learned how to make myself a priority and felt confident in huge business decisions that were made this year.

I hired Jessica after hearing about her through my women's entrepreneur group. At first I was nervous about the financial investment, however, that quickly changed after our very first call. When we got off the phone, I felt like she had already changed my whole business in a positive way!

She put me right to work, asking hard questions and made me deliver results. I never took a business class so having Jessica guide me has been the most valuable investment I've made to date.

I have 40X my sales, learned how to make myself a priority and felt confident in huge business decisions that were made this year. Besides all the above, her system is seamless, organized and delivers results. My only reservation is that I should have hired her sooner. I am forever grateful.
